

CDL LICENSE REQUIREMENTS

VISIT BIG APPLE URGENT CARE TODAY

THE DAY OF THE EXAM

- Bring medical records, if necessary
- Bring a list of current medications
- Bring eyeglasses/contact lenses
- Drink plenty of water; a full urinalysis is included

MEDICAL RECORDS TO BRING

DIABETIC CONDITION – Bring a list of medications and name of prescribing doctor.

HIGH BLOOD PRESSURE – Bring a list of medications and name of prescribing doctor.

HEART CONDITION – If you've had a heart attack or cardiovascular disease, bring a copy of your last stress test.

SLEEP APNEA – Bring a copy of your latest sleep test results, if you have one.

MEDICATIONS – List all the prescription medicines you take, including strength and dosage. If you regularly take over-the-counter medications, such as antacids or allergy pills, list them too.

CONTACT INFORMATION – Bring the names and phone numbers of your doctors in case you need them to fax missing information.

Our providers are FMCSA National Registry Certified Medical Examiners, and are qualified to perform CDL/DOT/TLC physicals. We are available to provide CDL medical exams 7 days a week and walk-ins are welcome!

As of May 21, 2014, only US DOT certified federal medical examiners can give you a CDL card.

Big Apple Urgent Care does not administer drug testing for issuing a Medical Examiner's Certificate. If your employer requires a Urine Drug Screen, please see our front desk staff for more information.

Big Apple Urgent Care cannot use your health insurance plan for this federal administrative visit because a CDL Medical Exam by a DOT Medical Examiner is NOT covered under any health plan. Call your health plan provider if you have questions. Billing an insurance company for this visit is health insurance fraud.

FMCSA (Federal Motor Carrier Safety Administration) regulations have made it more difficult to get CDL Card or renew your CDL license. **Don't let your CDL expire!**
